HUNTED ITEMS

As a full-service antiques and collectibles dealer, we search the globe for our clients and these items are being hunted now.

- Pre 1950's Barber or Dentist Chair: condition of upholstery not important but the head rest and food boards must be original.
- Barber Pole: original or reproduction along with any flashy signs and accessories.
- Antique safe: the bigger the better, preferably one that is flashy. Once again we are not worried about the paint condition but all the original hardware is a must.
- Royal Albert Bone China: Silver Maple pattern; all pieces must be in pristine condition with no gold loss.
- Pre 1900's Canadian or American First Nations baskets or bead work.
